The Aberdares boast incredible forests, bamboo thickets, cascading waterfalls and cool alpine moorlands. The Aberdares also hosts some of Kenya's rarest animals and birds, including the Bongo, Giant Forest Hog, Black Rhino, Crowned Eagle, Striped Flufftail and Jackson's Widowbird.

Loldia Naivasha (2 Nights)

Nestling under the acacia and wild fig trees on the green western shores of Lake Naivasha, the present Loldia House was constructed by Italian prisoners of war from stone quarried on the farm. Built around a courtyard, its main archway frames a stunning view of the dormant volcano Mount Longonot. Loldia House was established by a settler who came to Kenya by ox-wagon after the Boer War and is still owned by the same family today.

Masai Mara Karisia Standard Camp (4 Nights)

Masai Mara Game Driving. Its typical to wake early, have a light breakfast and go looking for game. Often times we bring tea, coffee and possibly some muffins to fend off hunger later in the morning. Typically we are back before lunch with a siesta afterward. After some tea/coffee and a snack you will head out again on a gamedrive that will take you till sunset. We typically bring some beer or wine for a sundowner under a beautiful tree or else beside a lion devouring a wildebeest. With all of these gamedrives you can speak to Lenjoh and adjust times as you like when on the ground.
